PROJECTS

Hospital Management WebApp   Link to Demo

Built a responsive, single-page application using React.js for a healthcare platform. Key features include appointment booking, doctor search functionality, and a hospital control panel. Managed state efficiently with React hooks and implemented user-friendly interfaces without a backend, simulating dynamic workflows entirely on the frontend.

Duo Studio Landing page Clone   Link to Demo

Developed an interactive and visually engaging website using HTML, CSS, and JavaScript. Integrated GSAP and Locomotive Scroll to create smooth animations and enhanced scroll effects, delivering a modern and dynamic user experience.
