Summary

Full-Stack MERN Developer skilled in React.js, focused on building responsive and user-friendly interfaces. Experienced in backend development using Node.js, Express.js, MongoDB, and REST APIs.click here.

Projects

• ConnectIn-Social Media Web App Link to Demo

Developed ConnectIn, a full-stack MERN social networking app with story creation, post uploads, user discovery, and real-time chat. Integrated Inngest for event workflows, Clerk for authentication, and ImageKit for media optimization. Built Node.js/Express APIs with MongoDB, enabling dynamic feeds, real-time messaging, and CRUD operations.

• Hospital Appointment Management WebApp Link to Demo

Built a MERN-based hospital appointment booking system with AI doubt-solving, doctor filtering, appointment tracking, and role-based dashboards for Admin, Doctors, and Patients. Implemented admin analytics, doctor earnings tracking, and patient profile management with a secure and scalable full-stack architecture.

• K72 Frontend Clone Link to Demo

Built a fully responsive K72 Frontend clone using React.js with smooth animations powered by GSAP, replicating the original UI/UX. Focused on pixel-perfect design, interactive components, and seamless user experience.

Education

2023 - 2027	Bachelor's Degree at **RKGITM**	(CGPA: 8.5/10) Till 5th Sem
2023	Class 12th CBSE	(83%)
2021	Class 10th CBSE	(92%)

Skills

Language: C, C++, JavaScript, TypeScript, HTML, CSS
Frameworks/Libraries: React.js, Node.js, Express.js, GSAP, Framer Motion
Database: MongoDB
Tools: VS Code, Postman, Github

Achievements:

• Solved more than 500+ Problem on LeetCode. Leetcode
• Secured 3rd position in Crack-o-Code, a 2-hour DSA-based coding competition.
• 1717 rating on LeetCode contest
