Summary

Full Stack Developer (MERN, Next.js, TypeScript) and aspiring AI Engineer with experience building web applications, REST/tRPC APIs, and production RAG pipelines using LLMs, embeddings, and vector databases. Strong DSA foundation (LeetCode max rating 1717, 500+ problems solved).

Technical Skills

Languages: C++, JavaScript, TypeScript, SQL, C, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, tRPC, Socket.io, JWT Authentication
Databases: MongoDB, PostgreSQL, Prisma ORM, Pinecone (Vector DB)
AI / GenAI: LLMs, RAG, Embeddings, Vector Search, LLM APIs, Prompt Engineering
Tools & Services: Git, GitHub, Postman, Clerk, Inngest, Cloudinary
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Experience

Full Stack Developer Intern August 2026 – October 2026
Cling Infotech *Noida, India*

- Built a RAG-based internal chatbot using LLM APIs, embeddings, and Pinecone vector search, enabling employees to query **10+ documents** and reducing information retrieval time by **90%**.
- Developed **8+ responsive, reusable React.js components** across **5 client projects**, improving UI consistency and reducing development time by **40%**.
- Integrated and tested REST APIs using Postman; resolved **15+ bugs**, improving application stability and page load time by **60%**.

Projects

VoiceAI – AI-Powered Voice Generation Platform Live Demo | GitHub
Next.js, TypeScript, tRPC, Prisma, PostgreSQL, Modal, Inngest

- Build a full-stack AI voice generation platform using Next.js, TypeScript, and tRPC, serving **20+ users** with an average generation time of **30 seconds**.
- Deployed open-source TTS models on Modal serverless GPUs, reducing inference cost/latency by **50%**.
- Designed asynchronous job pipelines with Inngest and PostgreSQL (Prisma) for reliable background processing, retries, and data management.

ConnectIn – Social Networking Platform Live Demo | GitHub
React.js, Node.js, MongoDB, Clerk, Inngest, ImageKit, Socket.io

- Built a full-stack social platform with interactive news feed, real-time messaging, and stories, supporting **50+ users/posts** in testing.
- Implemented secure authentication and authorization using Clerk and JWT, protecting **10+ routes/APIs**.
- Integrated Inngest for background workflows and ImageKit for media delivery, improving media load time by **80%**.

Education

Raj Kumar Goel Institute of Technology & Management 2023 – 2027
B.Tech in Computer Science and Engineering, CGPA: 8.37/10 (through 6th semester) *Ghaziabad, Uttar Pradesh*

Class XII (CBSE) 2023
Percentage: 83.2%

Achievements

- **3rd Place – National-Level Hackathon:** Secured third place among 100+ competing teams.
- **Finalist – Multiple National-Level Hackathons:** Led teams to the finals in several national-level hackathons, managing development and pitching the final product.
- **3rd Rank – Collegiate DSA Coding Contest:** Placed third in a competitive programming contest.
- **LeetCode:** Maximum rating of 1717; solved 500+ problems across LeetCode and GeeksforGeeks.
